Subject: 2026 Dust Abatement Season Information
Attachments: 2026 Web Posting List.pdf, 2026 Dust Abatement Commitment Letter.pdf

Good morning!

Dust abatement season will be here before you know it and we have gathered a list of the proposed roads the County will be doing. Please see the '2026 Web Posting List' I've attached for those roads.

If your road, or segment of road, is not on this list and you wish to have dust abatement done, please print the attached '2026 Dust Abatement Commitment Letter', fill it out and mail or email it back to me by March 20th. Having your footage on the list helps us get a better bid price for the material we use. As always, if you submit a commitment letter and later opt not to have dust abatement done for any reason, please simply call or email me and your name will be removed from this years list.

Bids for our dust abatement material will be due in April. Once the price per linear foot is known, I will send out another email letting everyone know. For reference, last years price was 70 cents/linear foot. We always anticipate that each year the price will be slightly higher.

Please let me know if you have any questions. I will have all emails, applications (as they become available) and due dates on our **new** website at <https://www.missoulacounty.gov/departments/public-works/roads/dust-abatement/>.

Feel free to share my contact information with anyone you know that may also be interested in our program.

If you wish to mail your commitment letter in, please mail it to:
